ONE OF 350 POLK DIRECTORY LIBRARIES

## This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —  
SAVE MANY MILES, MINUTES and DOLLARS

There are over 500 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

# INTRODUCTION

R. L. POLK & CO., publishers of the Bay City Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public, this, the 1932-33 edition, which also includes Essexville.

Confidence in the growth of Bay City's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Bay City to the world.

The enviable position occupied by R. L. POLK & CO.'S directories in the estimation of the public throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bay City Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Population

The estimated population of Bay City and Essexville is 49,158, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the community, as far as business and social life are concerned, is included in the directory, and, likewise, in the population estimate.

## Five Major Departments

The several essential departments are arranged in the following order:

**THE MISCELLANEOUS DEPARTMENT**, pages 11 to 19, presents a variety of information, such as lists of city, county, township and federal officials; court, post office and public school directories; statistical review; historical sketch; and manufacturing, trade and civic surveys.

**THE BUYERS' GUIDE**, pages 21 to 48, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Bay City and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Bay City, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

**THE ALPHABETICAL LIST OF NAMES** of residents, business firms and corporations is included in pages 49 to 307. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 309 to 393. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. A feature of this section is the distinction between tenant-owned and rented homes.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 397 to 436. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary

between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

#### **Municipal Publicity**

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bay City and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

#### **The Bay City Directory Library**

Through the courtesy of the publishers of the Bay City Directory, a Directory Library is maintained in the offices of the Bay City Chamber of Commerce, for free reference by the general public. This is one of 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

#### General Survey

What diversified crops are to the farm, in a large way, are diversified industries to a city, and this is one of the incontrovertible claims of Bay City. It is a city of diversified industries. There is perhaps no city of its size in the United States of which this may be said with such fitness. It has 120 different enterprises that run the gamut of industrial activities. These range from harness factories to manufacturers of automobile bodies, auto parts and tubes; from cement to ready-cut houses; from the whisk broom, which the Pullman porter wields so deftly, to the ponderous cranes that bit out the Panama Canal; from sweaters and caps to theatrical scenery and stage settings; from mattresses to soft coal; from sauer kraut to steel ships; from iron and brass foundry products to reed and wicker furniture. In fact, the contrasts could be extended for a considerable space.

Originally the camping ground of the Chippewa Indians, Bay City's recorded history reverts to about the year 1836, when it was known as Lower Saginaw. In July, 1839, Stephen Wolverton came with a commission to build a lighthouse at the mouth of the Saginaw River, and in that year Capt. Ben J. Pierce, who arrived on the schooner *Wave* during the week when the government was making the payments to the Indians, set the first store. Business expansion dates from that day.

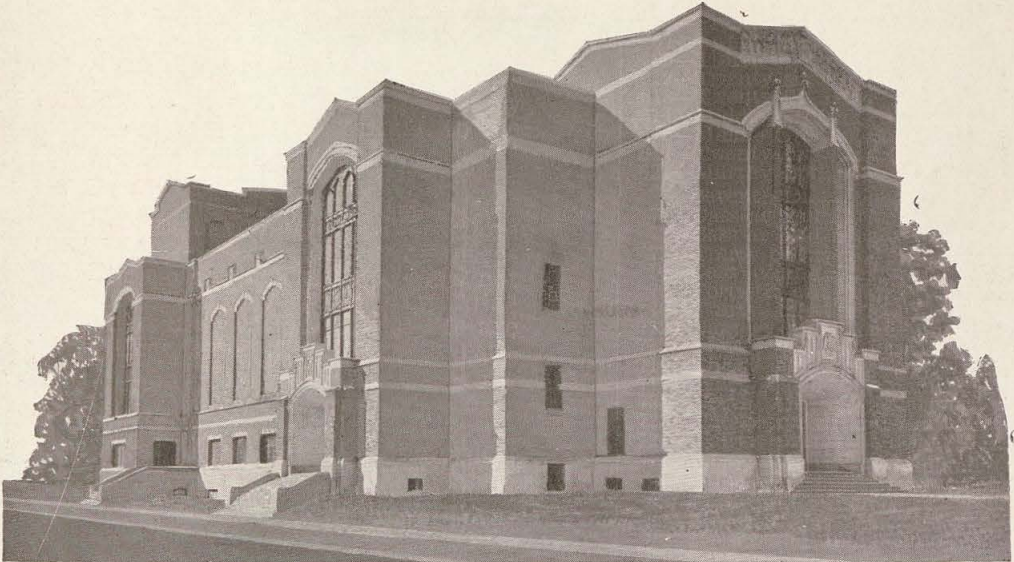

The valuable pine forests adjacent to the Saginaw River attracted the interests of capitalists in the early Forties and this led to the building of an experimental sawmill at what is now the foot of Sixth Street. Others

followed and Bay City became second to none as a lumber manufacturing center. In 1850 the inexhaustible salt basin which underlies the section was tapped, and this, too, developed as the lumber business had done. These two great industries brought about a rapid growth in wealth, importance and population. Coal was discovered about 1895 in Monitor Township, and a shaft was sunk. A dozen mines are in operation today within a short radius of the center of the city.

The advent of 1925 saw Bay City's \$2,000,000 filtration plant in operation, the "last word" in municipal water systems, and an unlimited supply of the purest and softest water it is possible to secure anywhere is now sent into Bay City homes and industries.

Moving ahead to make itself an ideal city, recent expenditures of over \$2,200,000 have been put into the Junior College and Central High School, the new Handy Junior High School and the rebuilt Eastern Junior High

**Scottish Rite Cathedral**

School. Sanctioned by the vote of the people, these expenditures illustrate the character of the folks who live here and their abiding faith in the future, 89 per cent of the 48,000 inhabitants owning the homes in which they live.

The purchase of 200 acres of land along the river by the Standard Oil Co., also the purchase of considerable acreage by the Pure Oil Co., and the erection of tanks and buildings to make Bay City its eastern Michigan distribution headquarters, shows that outside captains of industry appreciate this city's advantages. So also does the plan of the Aetna Portland Cement Co. for four units such as the two 1,300-barrel-a-day plants now operating using ships to bring in their raw materials, and the four systems of railroads which radiate in all directions, to carry their product to market.

Saginaw Bay fisheries yield over 10,000,000 pounds of fish each year. The three local sugar factories produce 125,000,000 pounds of sugar annually. Several million tons of excellent coal are mined, and millions of feet of all kinds of lumber are manufactured, as well as nationally-known cranes, dredges and construction equipment.

Developing rapidly is that business created by thousands of tourists seeking rest and recreation in the virgin forests and fish-bearing streams of northeastern Michigan. Through Bay City, the gateway, they sweep in hordes from the sunny Southland, from as far west as Oregon, and as far

east as Maine, in search of that which they cannot find at home in the summer time—a climate unequalled and a people whose hospitality is so well known that it has become an important asset.

Bay City has twelve urban parks and one state park, with a total of 140 acres. Over \$250,000 has been expended on Wenonah Park, in the central business district. Local banks have combined total resources of \$23,500,000. Banking figures show Bay City leading the state in per capita savings and Christmas savings funds. Because of the home-owning disposition of the people, labor turnover is a manufacturing worry that is eliminated.

Nature herself supplies Bay City with recreation, for the bays and lakes, the trout streams and the woods, the hills and camps of all descriptions are within easy access of every resident. Church and club life, supported by the city's advanced school facilities, round out an educational and moral atmosphere.

The Chamber of Commerce is composed of mature men whose vision in the past has made Bay City what it is, and the younger men whose later vision will make the new Bay City. This organization points with pride and pleasure to the miles of dockage, the redredged harbor and industrial sites, many of them having docks and rails and every available transport facility, as well as to the vast supply of coal in Bay County, cheap hydro power and cheap water transportation, and to the health of the community and its desirability as a home city.

Bay City is proud of its past, equally proud of its present and sure of its future. It accords a cordial and sincere welcome to guests.

## The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

This sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But  
**Your Directory  
Advertising**  
*is before the  
entire community*

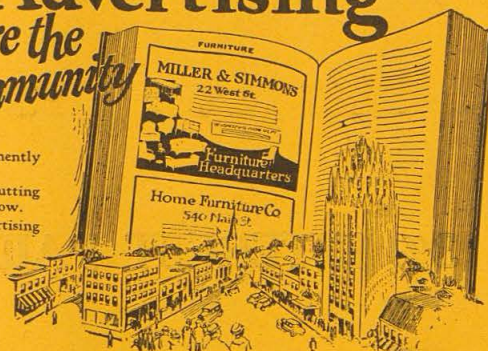

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

**LIST OF NAMES****ANY BUSINESS—ANY LOCALITY****Accurate and Up-to-the-minute**

We publish over 700 Directories—City, County, State, National and Trade. We furnish real live up-to-date lists of all trades and professions.

As directory publishers we frequently have available for lists the manuscript copy from which directories are being compiled, and thus you may secure information in advance of publication, a service that cannot be had elsewhere.

We have no trade lists—our information is taken from the latest sources, and above all things is accurate.

**R. L. POLK & CO., Publishers**  
DETROIT, MICH.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**

**Q** Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

**Q** New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

## POLK'S BAY CITY

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

1933

INCLUDING ESSEXVILLE

Copyright, 1932, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(ES) denotes East Side, (WS) West Side.

Q Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

Q New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

¶ Dr. Johnson, of dictionary fame, said that a man should keep his friendship in constant repair. Paraphrasing the learned doctor, every concern should keep its list of customers in constant repair.

¶ New customers must be obtained to replace those who discontinue because of reasons beyond control. To assist clients in getting new customers is the POLKWAY Mail-List Service. Ask for details.

# INCREASING YOUR BUSINESS

You can increase your sales and distribute your sales territory more effectively among your own sales force and among the wholesalers and retailers handling your goods, through Polk service.

## ***POLK WILL***

**Analyze your market**

**Build your quota**

**Compile your mailing lists**

**Write your form letters**

**Address and mail your letters  
or other advertising matter.**

No matter whether you are a small retailer or a big manufacturer, we can help you increase your sales and profits.

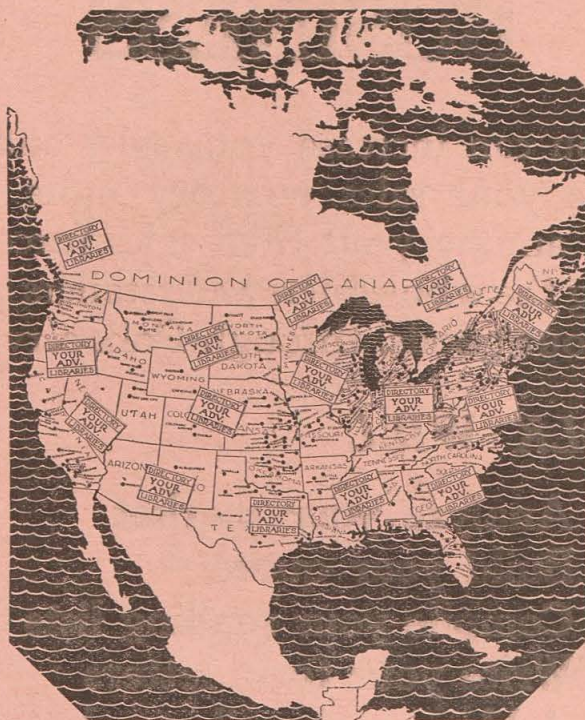

Why not at least find out what we can do for YOUR business? No obligation on your part.

### *Your Business on Record All Over America*

**Hundreds of Directory Libraries Can Give Your Advertisement  
National Circulation**

Thousands of your potential customers are visiting the City Directory Libraries of the United States and Canada every month seeking sources of supply and other information. These library locations are advertised and publicized consistently and continually. These libraries are maintained by the Association of North American Directory Publishers through the courtesy of the members who keep them supplied with City Directories as part of their service to the public. Is your product or service properly registered in these

libraries so that those looking for them or it may readily obtain the information desired?

This library system is a sound economic feature that brings your product or service within the reach of millions at a cost to you that is surprisingly low in comparison with proven results.

A folder, descriptive of this huge system of City Directory Libraries, together with a privilege card entitling you to the benefits of free usage, is yours for the asking, on your business letterhead. Apply either to your local Directory Publisher or to

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

**\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.**
